

Computer Science Topic Book -Guidelines For Use-

Understand each topic by using the resources provided,
Summarise your understanding using visual notes,
Answer test questions to measure your understanding.

Number all pages in your book from 1 to 40. One topic per page.
Each Topic Summary must meet the following 5 requirements:

1. Include the complete **topic number and date in full** eg. *Tuesday 6th September 2016* on each page, **underlined**
2. You should include a **minimum of words** to summarise the topic. **Do not copy the words** from the resources provided, only terms required.
3. Make **full use of the page** for each topic by scaling your notes & images appropriately to **use of all the space**.
4. You must include a variety of **diagrams, sketches** or **cartoon doodles** to visually represent the topic. Try to use humour.
5. **Highlight key words** and phrases, using underline, highlighter pens. Explain technical terms.

Remember - One topic per page
